NATIONAL SUBSTANCE USE AND MENTAL HEALTH SERVICES SURVEY (N-SUMHSS)

The N-SUMHSS is a voluntary annual survey of all active substance use and mental health facilities in the United States and its jurisdictions. The survey gathers data about the services that treatment facilities provide and summarizes information about the clients served.

The N-SUMHSS is being conducted by ICF on behalf of the Substance Abuse and Mental Health Services Administration (SAMHSA). ICF, an independent survey research company headquartered in Virginia, will send out invitations and reminders for completing the survey.

YOUR DATA MATTERS

The N-SUMHSS is the most comprehensive source of substance use and mental health treatment data in the country. SAMHSA, other Federal, state, and local agencies, and behavioral health care professionals use these data to understand treatment availability and identify gaps in our nation's treatment services.

THE BENEFITS OF PARTICIPATION

In addition to helping us understand substance use and mental health services in the United States, there are two reasons you should consider participating in the N-SUMHSS:

- Participating facilities will have the option of being listed on FindTreatment.gov (<https://findtreatment.gov>), which will make others aware of your services, and help you reach potential clients in your community you do not currently reach. Your facility must complete the N-SUMHSS every year to maintain your listing on FindTreatment.gov.
- Data from the N-SUMHSS will be available at SAMHSA's data dissemination website (<https://www.samhsa.gov/data>)

LEARN MORE

Visit <https://info.nsumhss.samhsa.gov> for copies of the questionnaire, frequently asked questions, online tips, and other resources for completing the survey in English or Spanish.

Contact ICF at ICFsupport@nsumhss.org or 1-833-302-1759 with any questions.
